

UpSurgeOn

A complete Training System for Spine Surgery

Spine Series

Endoscopic LumbarBox

Why this is the best simulator in the world

Highly Cost-Effective

10 operable levels in 1 single simulator

Hyper-realistic

The most realistic experience ever seen in endoscopic training

Smart Water Management System

An irrigation system to ensure an easy handling of high water flows

The first Mobile X-Ray in the Market

An App to simulate fluoroscopy using your mobile device

Compatible with Standard Imaging

Fully Compatible with standard X-Ray, and CT imaging

Highly Cost-Effective

The most extended in the market: from L1 to S1

10 OPERABLE LEVELS

Left Side

5 Translaminar Discectomies
OR
5 Transforaminal Discectomies

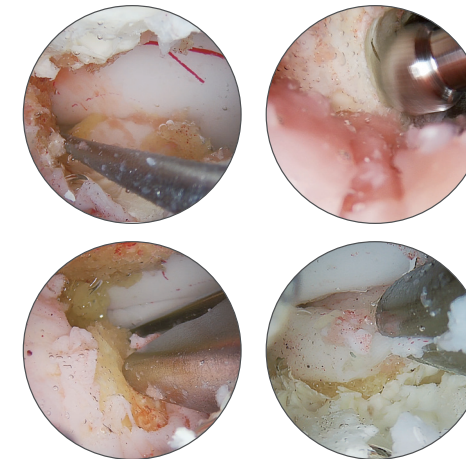

Right Side

5 Translaminar Discectomies
OR
5 Transforaminal Discectomies

Hyper-realistic

The most realistic experience in endoscopic training

1. Ultra-accurate anatomy
2. Hyper-realistic materials
3. Designed for wet and dry simulation

ANATOMY

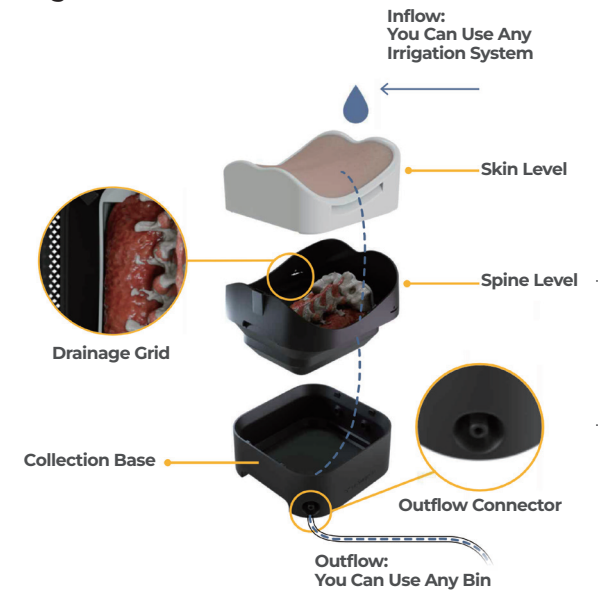

- Skin
- Subcutaneous fat
- Paravertebral muscles
- Vertebrae from L1 to S1
- Flavum Ligament
- PLL (Posterior Longitudinal Ligament)
- ALL (Anterior Longitudinal Ligament)
- Spinal cord
- Nerve roots
- Peridural fat

PROCEDURES

- PELD (Percutaneous Endoscopic Lumbar Discectomy)
- TELD (Transforaminal Endoscopic Lumbar Discectomy)
- Monoportal and biportal procedures

Smart Water Management System

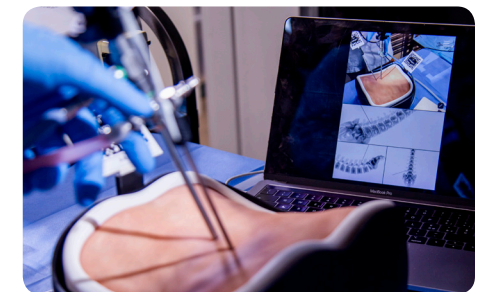

Integrated Water Collection

3 Training system

The First Mobile X-Ray in the Market

An App to simulate fluoroscopy using your mobile device

Mobile X-Ray

The Endoscopic LumbarBox is designed to seamlessly integrate with Mobile X-Ray technology through the Neurosurgery App.

- Real-time X-Ray imaging
- Identification of radiological landmarks
- Real-time visualization of needle placement
- Adaptable to your surgical instruments
- Accessible on every device
